

5 - Gang Wall Plate, One Decorator, Two GFCI and Two USB Openings, Satin Brass, 120V/15A

- Satin brass finish over solid brass construction
- 5-gang configuration: one decorator, two GFCI and two USB openings
- Rated for 120 V / 15 A branch circuits
- IP20 environmental rating for indoor dry-location use
- UL listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-D-G-G-U-U is a satin brass 5-gang wall plate configured with one decorator opening, two GFCI openings and two USB openings. It is intended for commercial and residential installations where a unified, finished appearance is required across mixed-device configurations in a single gang assembly.

Constructed from brass with a satin finish, the plate is rated for 120 V / 15 A circuits and carries an IP20 environmental rating, suitable for standard indoor dry-location, non-waterproof applications.

The assembly is UL listed and backed by a 1-year warranty.
