

5 - Gang Satin Brass Wall Plate Cover, Brass Construction, 120V / 15A, UL Listed

- 5-gang configuration for multi-device wall openings
 - Constructed from solid brass with a satin finish
 - Rated for 120V / 15A electrical service
- IP20 rated for standard indoor dry-location use
 - UL listed for compliance verification
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-D-G-S-S-U is a 5-gang satin brass wall plate cover for multi-device electrical installations. It is intended for residential settings where a coordinated, durable finish is required across five adjacent switch or outlet positions.

Constructed from brass with a satin finish, the plate is rated for 120V / 15A service and carries an IP20 rating, indicating suitability for standard indoor dry-location use. It is classed as non-waterproof and intended for interior applications only.

The product is UL listed and backed by a 1-year warranty.
