

5 - Gang Wall Plate with Decorator, GFCI, Switch and Two USB Openings, Satin Brass, 120V 15A

- Brass construction with satin finish
- Five-gang configuration: decorator, GFCI, switch and two USB openings
- Rated for 120V, 15A electrical service
- IP20 rating for indoor, non-waterproof locations
- UL listed for code-compliant installations
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-D-G-S-U-U is a satin brass 5-gang wall plate designed for residential and light commercial wiring applications. It combines a decorator opening, a GFCI opening, a toggle switch opening and two USB openings in a single multi-gang assembly, suited for consolidated outlet and switch locations in renovation or new construction projects.

Constructed from brass with a satin finish, the plate is rated for 120V/15A service and carries an IP20 rating, indicating suitability for standard indoor dry locations. It is not rated for waterproof or wet-location use.

The assembly is UL listed and carries a 1-year warranty.
