

5 - Gang Wall Plate, Satin Brass Finish, 120V/15A, UL Listed

- 5-gang configuration with one decorator, one GFCI and three USB openings
- Brass construction with satin finish
- Rated for 120V, 15A electrical service
- IP20 rated for indoor, non-waterproof use
- UL listed
- 1-year warranty

OVERVIEW

The C-VTG-SB-5-D-G-U-U-U is a satin brass 5-gang wall plate cover for consolidated electrical device installations. The configuration provides one decorator opening, one GFCI opening and three USB openings within a single cover plate, suitable for residential and light commercial applications combining switch, receptacle and USB charging devices.

Constructed from brass with a satin finish, the plate is rated for indoor use at 120V and 15A, carrying an IP20 rating for protection against solid objects greater than 12mm with no specific moisture resistance. It is classified as non-waterproof.

The product is UL listed and carries a 1-year warranty.
