

Satin Brass 5-Gang Combination Wall Plate, 120V/15A, UL Listed

- 5-gang layout combines decorator, switch, toggle, toggle and USB openings
- Machined from solid brass for a satin finish cover plate
- Rated 120V at 15A for standard branch circuit wiring
- IP20 rated for non-waterproof interior dry locations
- UL listed for code-compliant installation
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-D-S-T-T-U is a satin brass 5-gang combination wall plate designed for residential and light commercial wiring applications. The configuration includes one decorator opening, one switch opening, two toggle openings and one USB opening, allowing multiple device types to be finished under a single unified cover plate.

Constructed from brass with a satin finish, the plate is rated IP20 for non-waterproof interior use and is suited to circuits operating at 120V and up to 15A.

The product is UL listed and carries a 1-year warranty.
