

5 - Gang Satin Brass Wall Plate, 120V/15A Rated, UL Listed

- 5-gang configuration for multi-device wall openings
- Satin brass finish for decorative interior trim
- Brass construction for a solid, corrosion-resistant cover
- UL listed for verified safety compliance
- Rated for 120V, 15A electrical circuits
- IP20 rated for standard non-waterproof indoor environments

OVERVIEW

The C-VTG-SB-5-G-G-G-G-G is a 5-gang satin brass wall plate designed for multi-device outlet and switch configurations in residential and light commercial interiors. Its satin brass finish provides a decorative metal cover option over standard plastic alternatives for upscale trim applications.

Constructed from brass, the plate is rated IP20 for non-waterproof indoor use and is compatible with 120V, 15A circuits. The satin finish reduces glare while presenting a consistent, refined appearance across multi-gang installations.

The plate is UL listed and backed by a 1-year warranty.
