

5 - Gang Satin Brass Wall Plate, GGGGT Configuration, 120V 15A, UL Listed

- 5 - gang configuration with four G-style openings and one T-style opening
- Rated 120V at 15A for standard residential circuits
- Satin brass finish over solid brass construction
- IP20 rated, non-waterproof, for dry interior installation
- UL listed with a 1 - year warranty

OVERVIEW

The C-VTG-SB-5-G-G-G-G-T is a 5 - gang wall plate finished in satin brass, configured as four G-style openings and one T-style opening to support a coordinated multi-device layout in a single ganged assembly. It is built for residential supply applications requiring five devices mounted together on one plate.

Constructed of brass with a satin brass finish, the plate is rated IP20 and classified non-waterproof, making it suited for standard dry interior locations. It supports a 120V, 15A circuit.

The assembly is UL listed and carries a 1 - year warranty.
