

Satin Brass 5-Gang Wall Plate, Four Decorator Openings and One USB, UL Listed, 120V/15A

- Five-gang configuration with four decorator openings and one USB opening
- Constructed from brass with a satin brass finish
- Rated for 120V circuits at 15A
- IP20 rated, non-waterproof, for interior residential use
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-G-G-G-G-U is a satin brass 5-gang wall plate configured with four decorator-style openings and one USB opening, intended for residential supply installations where multiple device types are grouped on a single plate. It is built to order as part of a modular gang-plate system, allowing contractors to match opening types to the devices being installed.

The plate is constructed from brass with a satin finish for a coordinated, durable appearance across grouped switch and outlet installations. It is rated for 120V/15A circuits and carries an IP20, non-waterproof environmental rating, making it suitable for standard interior residential use.

The product is UL listed and backed by a 1-year warranty.
