

5-Gang Satin Brass Wall Plate, Three GFCI Openings and Two Switches, 120V/15A

- 5-gang configuration with three GFCI openings and two switch openings
- Brass construction with satin brass finish
- Rated for 120 V service at 15 A current draw
- IP20 rated for indoor dry-location installation
- UL listed for compliance verification
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-G-G-G-S-S is a 5-gang wiring device plate finished in satin brass, configured with three GFCI receptacle openings and two switch openings. It provides a coordinated multi-device wall plate solution for residential supply installations requiring several device types grouped in a single gang assembly.

Constructed from brass with a satin finish, the plate is rated for 120 V service at 15 A and carries an IP20 rating, suitable for standard indoor dry-location use in non-waterproof environments.

The device is UL listed and carries a 1-year warranty.
