

5-Gang Satin Brass Wall Plate with Two GFCI and Three Toggle Switch Openings, 120V/15A

- 5-gang configuration with two GFCI and three toggle switch openings
- Solid brass construction with satin brass finish
- Rated for 120 V service at up to 15 A
- IP20 environmental rating for indoor dry locations
- UL listed for residential electrical applications
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-G-G-S-S-S is a 5-gang wall plate finished in satin brass, configured with two GFCI receptacle openings and three toggle switch openings to accommodate a combination of device types within a single assembly. It is intended for residential supply applications where a coordinated, multi-device wall plate is required.

Constructed from brass with a satin brass finish, the plate supports 120 V service at up to 15 A and carries an IP20 environmental rating, suitable for standard indoor dry locations.

The assembly is UL listed and backed by a 1-year warranty.
