

5 - Gang Wall Plate, GFCI and Toggle Switch Openings, Satin Brass, 120V/15A, UL Listed

- Five-gang satin brass plate with GFCI and toggle switch openings (GGSST)
- Constructed from solid brass for interior wiring device installations
- Rated for 120V/15A standard branch circuit service
- IP20 rated for non-waterproof, dry indoor environments
- UL listed for code-compliant installation
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-G-G-S-S-T is a 5-gang satin brass wall plate assembly configured for residence supply applications. The GGSST configuration combines GFCI-style and toggle switch openings on a single plate, suited for consolidated device layouts in residential or light commercial interiors.

Constructed from solid brass with a satin finish, the assembly is rated for 120V/15A branch circuit service and carries an IP20 environmental rating for standard dry indoor use. It is intended for non-waterproof interior installations.

The device is UL listed and backed by a 1-year warranty.
