

5 - Gang Wall Plate, Two GFCI, One Toggle, Two USB Openings, Satin Brass, 120V/15A, UL Listed

- Five-gang configuration with two GFCI, one toggle, and two USB openings
- Constructed from brass for structural durability
- Satin brass finish for a coordinated interior appearance
- IP20 rated for standard dry-location, non-waterproof installations
- Rated for 120V/15A circuits
- UL listed and backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-G-G-T-U-U is a satin brass 5-gang wall plate configured with two GFCI openings, one toggle opening, and two USB openings, intended for residential and light commercial wiring where multiple device types are combined in a single gang assembly. The satin brass finish suits upscale interior installations requiring a coordinated hardware appearance.

Constructed from brass, the plate is rated IP20 for standard dry-location use and is not intended for wet or wash-down environments. It is compatible with 120V/15A circuits and carries UL listing.

The assembly is backed by a 1-year warranty.
