

5 - Gang Satin Brass Wall Plate, UL Listed, 120V/15A, IP20

- Five-gang configuration for multi-device wiring installations
 - Solid brass construction with satin finish
- UL listed for 120V/15A circuit applications
 - IP20 rated, non-waterproof, for interior dry locations
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-G-S-S-S-S is a 5-gang wall plate finished in satin brass, built for multi-device electrical installations in residential and light commercial settings. Its five-opening configuration accommodates a cluster of switches or other standard wiring devices behind a single coordinated cover.

Constructed from solid brass, the plate carries a satin finish suited to interior dry locations and is rated IP20, non-waterproof. It supports 120V/15A circuits and is UL listed.

The plate is backed by a 1-year warranty.
