

Satin Brass 5 - Gang Wall Plate, GFCI/Switch/USB Configuration, 120V/15A, UL Listed

- Five-gang plate configured as GFCI, two switch, and two USB openings
- Constructed of solid brass with a satin brass finish
- UL listed for 120V, 15A circuit applications
- Rated IP20 for standard interior, non-waterproof locations
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-G-S-S-U-U is a satin brass 5-gang wall plate assembled to a GSSUU device configuration, combining one GFCI opening, two switch openings, and two USB openings in a single multi-gang unit. It is intended for residential and commercial finish-out where several device types are grouped at one location.

The plate is manufactured from brass with a satin brass finish and is UL listed for use on 120V, 15A circuits. It carries an IP20 environmental rating and is classified as non-waterproof, suited to standard interior wall installations rather than wet or damp locations.

The assembly is backed by a 1-year warranty.
