- Five-gang configuration with GFCI, duplex receptacle, toggle switch and dual USB openings
- Constructed from brass with a satin finish
- Rated for 120V service at 15A
- IP20 environmental rating for dry interior locations
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-G-S-T-U-U is a satin brass 5-gang wall plate assembly configured with a GFCI opening, a standard duplex receptacle opening, a toggle switch opening, and two USB charging openings. It is intended for commercial and residential electrical installations where a single coordinated plate must accommodate multiple device types across one wall location.

The plate is constructed from brass with a satin finish and is rated for 120V/15A service. It carries an IP20 environmental rating, indicating suitability for dry interior locations, and is UL listed.

The assembly is backed by a 1-year warranty.
