

5 - Gang Wall Plate, Satin Brass, GFCI/Toggle/USB Openings, 120V/15A

- Satin brass finish for a consistent low-sheen interior appearance
- Brass construction for durable, long-term device mounting
- 5-gang layout with one GFCI, two toggle and two USB openings
- Rated 120V at 15A for standard residential and commercial circuits
- IP20 environmental rating for dry, non-waterproof interior use
- UL listed with a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-G-T-T-U-U is a satin brass 5-gang wall plate assembly built to order with one GFCI opening, two toggle openings and two USB openings, suited for commercial and residential installations requiring mixed device types on a single plate. The satin brass finish provides a consistent, low-sheen surface appropriate for professional interior work.

Constructed from brass, the plate is rated for 120V/15A service and carries an IP20 environmental rating for dry, interior locations where moisture protection is not required. It is UL listed and backed by a 1-year warranty.
