

Satin Brass 5-Gang Wall Plate, GFCI, Toggle and Triple USB Openings, 120V/15A

- Five-gang configuration: GFCI, toggle switch and three USB openings
- Constructed of brass with a satin brass finish
- Rated 120V at 15A for standard residential circuits
- IP20 rated, classified non-waterproof for interior use
- UL listed for compliance verification
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-G-T-U-U-U is a satin brass 5-gang wall plate configuration built for multi-device residential and light commercial installations. The five-gang layout combines one GFCI opening, one toggle switch opening and three USB openings in a single unified plate assembly.

The assembly is rated for 120V operation at 15A and constructed of brass with a satin brass finish for a consistent decorative appearance across gangs. It carries an IP20 rating and is classified non-waterproof, making it suited for dry interior locations.

The device is UL listed and backed by a 1-year warranty.
