

5 - Gang Wall Plate, Two Single - Pole Switches and Three Tamper - Resistant Receptacles, 120V/15A, Satin Brass

- Five-gang configuration with two single-pole switches and three tamper-resistant receptacles
- Solid brass construction with a satin brass finish
- Rated for 120 V / 15 A residential and commercial circuits
- IP20 rated for dry, non-waterproof indoor installations
- UL listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-S-S-T-T-T is a 5-gang wiring device cover plate finished in satin brass, configured with two single-pole switch openings and three tamper-resistant receptacle openings. It is intended for commercial and residential wiring applications where multiple devices must be grouped in a single wall plate.

Constructed from brass with a satin finish, the plate is rated for 120 V / 15 A circuits and carries an IP20 rating for non-waterproof, dry indoor environments.

The device is UL listed and backed by a 1-year warranty.
