

5 - Gang Wall Plate, Two Switch, Two Toggle and One USB Openings, Satin Brass, 120V 15A

- 5-gang configuration with two switch and two toggle openings plus one USB opening
- Satin brass finish over brass body construction
- Rated for 120 V, 15 A wiring devices
- IP20 rated for dry, non-waterproof interior locations
- UL listed assembly
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-S-S-T-T-U is a 5-gang wall plate finished in satin brass, configured with two switch openings, two toggle openings and one USB opening for a coordinated multi-device installation in a single gang grouping. It is intended for residential supply applications where several device types are combined behind one plate.

Constructed from brass, the plate carries an IP20 rating for standard dry-location interior use and is compatible with 120 V, 15 A wiring devices common to North American residential circuits.

The assembly is UL listed and backed by a 1-year warranty.
