

5 - Gang Wiring Device Plate, Toggle Switch and Four USB Openings, Satin Brass, 120V/15A

- Five-gang configuration with one toggle switch and four USB openings
- Satin brass finish over solid brass material construction
- Rated 120V at 15A for standard residential circuits
- IP20 rated for non-waterproof, indoor dry-location use
- UL listed for verified safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-T-U-U-U-U is a satin brass 5-gang wall plate assembly combining one toggle switch opening with four USB device openings. It is intended for residential and light commercial installations where a coordinated brass-finish plate is required across multiple gang positions, such as kitchens, entertainment centers or multi-outlet workstations.

The assembly is rated for 120V/15A service and carries an IP20 rating for standard indoor dry-location use. Construction is brass with a satin brass finish, and the plate is UL listed. The product is backed by a 1-year warranty.
