

Vintage Brass Double Outlet, 120V 15A Duplex Receptacle, UL Listed, IP20

- Duplex receptacle rated 120 VAC at 15A maximum current draw
- Vintage brass finish for period-appropriate residential installations
- Non-waterproof design with IP20 environmental rating for interior use
- UL Listed under file number E481372-20200313
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SO2-VB is a vintage brass duplex receptacle designed for residential supply applications where a period-appropriate aesthetic is required alongside standard electrical functionality. It suits heritage renovations, boutique hospitality settings, or any project calling for a decorative brass finish on receptacle hardware.

The outlet operates at 120 VAC with a 15A current draw, consistent with standard single-phase branch circuit wiring. Brass construction provides a durable, non-waterproof finish rated IP20 for interior environments.

This outlet carries a UL Listed designation, confirming evaluation to applicable safety standards for U.S. electrical installations, and is backed by a 1-year warranty.
