

3 - Gang Stripped Brass Wall Plate for Duplex, GFCI and USB Openings, 120V 15A, UL Listed

- Stripped brass finish over solid brass construction
 - IP20 environmental rating for dry indoor installations
 - Rated for 120V service at 15A current draw
- UL listed for compliance verification
 - Backed by a 1 - year manufacturer warranty
 - Configured for 3-gang duplex, GFCI and USB openings

OVERVIEW

The C-VTG-SS-3-D-G-U is a 3-gang stripped brass wall plate configured for duplex, GFCI, and USB device openings, intended for residential supply applications where a multi-gang brass finish plate is required.

The plate is rated for 120V / 15A service and carries an IP20 environmental rating, suitable for dry indoor locations. Brass construction with a stripped finish provides a durable, corrosion-resistant surface compatible with standard residential gang box configurations.

The product is UL listed and backed by a 1-year warranty.
