

4 - Gang Stripped Brass Residence Supply Cover Plate, 120V 15A, IP20, UL Listed

- Solid brass construction for a stripped, unfinished metal surface
- 4 - gang configuration in a G - G - G - S layout
- Rated for 120V service at up to 15A
- IP20 rated for non - waterproof, indoor installations
- UL listed for compliance verification
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-SS-4-G-G-G-S is a 4 - gang stripped brass residence supply cover plate configured in a G - G - G - S layout, designed for commercial and residential electrical installations where a durable metal finish is required. The stripped brass construction suits applications that call for a bare metal surface, whether for custom finishing or direct use in period - appropriate or industrial interiors.

The plate is rated for 120V service at 15A and carries an IP20 environmental rating for non - waterproof, indoor use. Brass construction provides a solid metal base suited to heavy - use commercial and residential switch assemblies.

The unit is UL listed and backed by a 1 - year warranty.
