

4 - Gang Stripped Brass Residence Supply Cover Plate, 120V 15A, UL Listed

- Stripped brass finish over brass base material
- Configured for 4-gang device or outlet openings
- Rated for 120V operation at 15A current draw
- IP20 environmental rating for dry interior use
- UL listed for compliance verification
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SS-4-G-G-S-U is a 4-gang stripped brass residence supply cover plate designed for commercial and residential electrical installations. The stripped brass construction provides a durable, conductive interface suitable for multi-gang outlet or device configurations where a finished cover is applied separately or specified independently.

The plate is rated for 120V operation with a 15A current draw, matching standard residential supply circuits. It carries an IP20 environmental rating and is classified as non-waterproof, making it appropriate for dry interior locations only.

The product is UL listed and carries a 1-year warranty.
