

4 - Gang Stripped Brass Residence Supply Device, 120V 15A, UL Listed

- Stripped brass finish over brass material construction
- Configured as a 4 - gang residence supply device
- Rated for 120V operation at 15A current draw
- IP20 environmental rating for dry indoor use
- UL listed for electrical compliance
- 1 - year warranty coverage

OVERVIEW

The C-VTG-SS-4-G-S-T-U is a 4 - gang stripped brass residence supply device designed for commercial and residential electrical distribution applications. The stripped brass construction and brass material are suited for contractors and electricians requiring a configurable multi - gang supply point as part of a build - your - own wiring device assembly.

The device is rated for 120V operation with a 15A current draw, supporting standard residential and light commercial branch circuit loads. It carries an IP20 environmental rating and is classified as non - waterproof, indicating suitability for dry, indoor installation locations only.

The device is UL listed and backed by a 1 - year warranty.
