

4 - Gang Stripped Brass Residence Supply Switch Plate, 120V 15A, UL Listed

- Stripped brass finish for an unfinished, raw metal appearance
 - Brass material construction for durability in gang box applications
- Rated for 120V operation at 15A current draw
 - IP20 environmental rating for dry indoor locations
 - Non-waterproof design suited to interior installations
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SS-4-S-S-S-S is a 4-gang stripped brass residence supply cover plate designed for multi-device electrical installations in residential and light commercial applications. The stripped brass construction provides a durable, conductive base suitable for standard gang box configurations where a clean, unfinished brass surface is required.

The plate is rated for 120V service at 15A and carries an IP20 environmental rating, reflecting its intended use in dry, non-waterproof indoor locations.

The assembly is UL listed and backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
--------------	----------
