OVERVIEW

The C-VTG-SS-4-S-S-T-T is a 4-gang brass residence supply outlet configured in a dual single/duplex (SSTT) arrangement, designed for commercial and residential electrical distribution applications. The stripped brass construction allows for field-ready termination, making it suitable for contractor installation in panel assemblies, outlet banks, and structured wiring builds.

Rated for 120 V AC service at 15 A, this outlet is built to standard residential supply specifications. The brass material provides reliable conductivity and durability in typical indoor environments rated IP20.

The unit is UL listed and backed by a 1-year warranty.
