

5 - Gang Stripped Brass Wall Plate, Four Decorator Openings and One Toggle, 120V/15A

- Stripped brass finish over solid brass base material
 - UL listed for electrical safety compliance
 - IP20 rated for indoor, dry -location installation
- Rated for 120V operation at up to 15A current draw
 - Backed by a 1 -year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-D-D-D-D-T is a 5-gang stripped brass wall plate configured with four decorator openings and one toggle opening, designed for residential and commercial electrical distribution applications. The stripped brass construction provides a durable, corrosion-resistant base suitable for standard outlet and switch configurations. This unit is rated for 120V input at 15A maximum current and carries an IP20 rating, making it appropriate for indoor, dry-location installations. The brass material ensures reliable conductivity and long-term mechanical integrity under normal service conditions. The product is UL listed and backed by a 1-year manufacturer warranty.
