

5 - Gang Stripped Brass Wall Plate, Three Decorator, One GFCI, One Toggle Openings

- Constructed from brass with a stripped brass finish
- Five-gang layout with three decorator, one GFCI and one toggle opening
- Rated for 120 V, 15 A electrical service
- IP20 rated, classified Non-Waterproof for dry indoor use
- UL Listed for verified compliance
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SS-5-D-D-D-G-T is a 5-gang stripped brass wall plate configured with three decorator openings, one GFCI opening, and one toggle opening. It is intended for commercial and residential wiring installations where a custom multi-device layout is required in a single gang assembly, such as panel rooms, utility spaces, and multi-device wall stations.

Constructed from brass, the plate is rated for 120 V / 15 A service and carries an IP20 rating, indicating suitability for dry indoor environments with protection against solid objects greater than 12 mm; it is classified Non-Waterproof.

The assembly is UL Listed and backed by a 1-year warranty.
