

5 - Gang Stripped Brass Wallplate, Two Duplex, GFCI, Switch and Tamper Openings, UL Listed

- 5-gang configuration with two duplex, one GFCI, one switch and one tamper-resistant opening
- Constructed from brass with a stripped brass finish
- Rated for 120 V circuits at up to 15 A
- IP20 environmental rating for indoor, non-waterproof installations
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SS-5-D-D-G-S-T is a 5-gang stripped brass wallplate assembly configured with two duplex openings, one GFCI opening, one switch opening and one tamper-resistant opening. It is intended for residence supply applications where a single multi-device cover plate is required to consolidate several circuit types in one location.

The plate is constructed from brass with a stripped brass finish and is rated for 120 V circuits at up to 15 A. It carries an IP20 environmental rating and is classified non-waterproof, making it suitable for indoor installation only.

The assembly is UL listed and backed by a 1-year warranty.
