

5 - Gang Brass Wall Plate, Stripped Brass Finish, 120V 15A, UL Listed

- 5-gang configuration for multiple device openings
 - Constructed from stripped brass material
 - Rated 120V at 15A for standard branch circuits
- IP20 rated for dry, non-waterproof indoor use
 - UL listed for verified safety compliance
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-D-G-G-G-S is a 5-gang residence supply wall plate constructed from stripped brass, designed for commercial and residential electrical installations requiring a durable, multi-gang configuration. It is suited for use in standard wall box applications where multiple device openings are needed in a single plate assembly.

The plate is rated for 120V at 15A and carries an IP20 rating, making it appropriate for dry indoor, non-waterproof environments. The stripped brass construction provides a solid base for finishing or direct installation per project specifications.

The unit is UL listed and backed by a 1-year warranty.
