

5 - Gang Stripped Brass Wall Plate, DGGGT Configuration, 120V, UL Listed

- Stripped brass finish for a vintage aesthetic
 - Brass material construction for durability
 - Rated for 120 V operation at 15 A current draw
- IP20 rated, non - waterproof, for dry indoor use
 - UL listed
 - Backed by a 1 - year warranty

OVERVIEW

The C-VTG-SS-5-D-G-G-G-T is a 5 - gang stripped brass wall plate configured in a DGGGT layout, designed for residential and commercial electrical installations requiring a multi - gang brass cover to accommodate a combination of device openings within a single assembly. The stripped brass finish suits vintage and restoration - style interiors while providing a durable brass substrate for switch and outlet groupings.

The plate is rated for 120 V operation with a 15 A current draw and carries an IP20, non - waterproof environmental rating, limiting use to dry indoor locations. It is UL listed and backed by a 1 - year warranty.
