

5 - Gang Stripped Brass Residence Supply Voltage Tap, 120V/15A, UL Listed

- Stripped brass finish and brass construction for durable contacts
- Rated IP20 for standard indoor, non - waterproof environments
- Operates at 120V with a 15A current draw
- UL listed for compliance verification
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-D-G-S-S-U is a 5-gang residence supply voltage tap constructed with stripped brass contacts. Designed for commercial and residential electrical distribution applications, it allows multiple circuit connections from a single supply point, suited for use by licensed electrical contractors and installers.

The unit is built from brass, offering reliable conductivity and durability in standard indoor environments rated IP20 and rated for 120V at 15A. It carries a non - waterproof environmental rating for interior use.

The unit is UL listed and backed by a 1-year warranty.
