OVERVIEW

The C-VTG-SS-5-D-G-T-T-U is a 5 - gang stripped brass residence supply connector for commercial and residential electrical distribution builds. The stripped brass construction provides a durable termination point for multi - circuit wiring assemblies, suited for licensed electrical contractors configuring custom panel feed and branch circuit layouts.

This connector is rated for 120V at 15A with brass contacts sized for standard residential supply connections. The IP20 rating indicates suitability for dry, indoor installations where protection against solid objects is required but moisture exposure is not a factor.

The unit is UL listed and carries a 1 - year warranty.
