

5 - Gang Stripped Brass Residence Supply Outlet Cover, GGGGT Configuration, IP20, UL Listed

- Stripped brass finish over solid brass material construction
- 5 - gang GGGGT configuration for multi - opening switch and outlet layouts
- IP20 rated for non - waterproof, indoor electrical applications
- Rated for 120 V operating voltage and 15 A current draw
- UL listed for verified electrical safety compliance
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-G-G-G-G-T is a 5 - gang stripped brass residence supply outlet cover configured in a GGGGT layout, designed for commercial and residential electrical installations requiring a durable, multi - outlet surface finish. The stripped brass construction provides a clean base suitable for custom finishing or direct installation where a metal faceplate is specified. Rated IP20 for non - waterproof indoor use, the cover supports a 120 V operating voltage with a 15 A current rating. The assembly is UL listed and carries a 1 - year warranty.
