

5 - Gang Stripped Brass Switch Plate Cover, GGGTU Configuration, 120V/15A, Brass

- 5-gang configuration with GGGTU opening layout
- Constructed from solid brass with stripped-brass finish
- Rated for 120 V / 15 A residential and commercial circuits
- IP20 environmental rating for indoor dry-location use
- UL listed for electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-G-G-G-T-U is a 5-gang stripped brass switch plate cover configured in a GGGTU layout, combining three general (G) openings, one toggle (T) opening, and one USB (U) opening. Part of a configurable Build Your Own Residence Supply series, it allows contractors and electricians to specify gang count and opening arrangement to match project wiring layouts.

Constructed from brass with a stripped-brass finish, the cover plate is rated for 120 V / 15 A circuits and carries an IP20 environmental rating, indicating a non-waterproof design suited to standard indoor dry-location installations.

The product is UL listed and backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
