

5 - Gang Stripped Brass Residence Supply Voltage Tap, 120V / 15A, UL Listed

- Constructed from brass with a stripped finish for a conductive gang-style interface
- Rated for 120V operation at 15A for multi-circuit supply applications
- IP20 rated with a Non-Waterproof environmental classification for indoor use
- UL Listed construction
- Rated component life of 50,000 hours
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SS-5-G-G-S-S-T is a 5-gang stripped brass residence supply voltage tap designed for commercial and residential electrical distribution applications. The stripped brass construction provides a durable, conductive interface suitable for multi-circuit wiring configurations where a pre-terminated, gang-style supply point is required.

The unit is rated for 120V operation at 15A and carries an IP20, Non-Waterproof environmental rating, indicating suitability for indoor, dry-location installations. Rated component life is listed at 50,000 hours.

The assembly is UL Listed and backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
