

5 - Gang Stripped Brass Outlet Cover Plate, 120V, 15A, UL Listed

- 5-gang configuration for multi-switch or outlet installations
- Stripped brass finish over solid brass construction
- Rated for 120V input at 15A maximum current draw
- IP20 rated, non-waterproof, for dry indoor use
- UL listed for electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-G-S-S-S-T is a 5-gang stripped brass residence supply outlet cover designed for commercial and residential electrical installations. Constructed from brass, it accommodates multi-gang configurations at standard 120V service points.

The cover is rated for 120V input at 15A maximum current and carries an IP20 rating, indicating suitability for dry indoor environments where no protection against moisture ingress is required. The LED lifetime rating of 50,000 hours applies to the associated residence supply system.

The assembly is UL listed and backed by a 1-year warranty.
