

5 - Gang Brass Wall Plate, Three Single and Two Toggle Openings, 120V 15A, UL Listed

- Constructed from stripped brass for a durable, corrosion-resistant finish
- Rated for 120V at 15A on residential and commercial circuits
- IP20 rated for dry, non-waterproof indoor installations
- UL listed for compliance with North American electrical standards
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-S-S-S-T-T is a 5-gang residence supply outlet plate configured with three single outlets and two toggle positions, constructed from stripped brass. Intended for commercial and residential wiring applications, this plate is suited for standard wall box installations where a multi-gang configuration is required.

Rated for 120V at 15A, the brass construction provides durability and a consistent finish suitable for exposed or semi-exposed installation environments. The plate carries an IP20 rating, indicating suitability for dry indoor locations.

The plate is UL listed and backed by a 1-year manufacturer warranty.
