

5 - Gang Stripped Brass Switch Plate Cover, STTTU Configuration, UL Listed 120V/15A

- Stripped brass finish over brass base material
- 5-gang STTTU device configuration
- UL listed for code-compliant installation
- Rated 120V at 15A for standard residential circuits
- IP20 rated, non-waterproof, for indoor dry-location use
- 1-year manufacturer warranty

OVERVIEW

The C-VTG-SS-5-S-T-T-T-U is a 5-gang stripped brass residence supply cover configured in the STTTU layout, intended for commercial and residential electrical installations that require a durable, customizable wiring device cover. The stripped brass construction provides a robust base suited to contractor-grade projects where finish or device population is specified separately.

The cover is rated for 120V/15A service and carries an IP20 environmental rating, classifying it as non-waterproof and appropriate for indoor, dry-location use. It is UL listed and backed by a 1-year warranty.
