

5 - Gang Stripped Brass Wall Plate, 120V, 15A, UL Listed, IP20

- Brass construction with a stripped finish for a raw metal appearance
- Rated for 120V operating voltage and up to 15A current draw
- IP20 rated for dry indoor use, non - waterproof environmental rating
- UL listed for verified electrical safety compliance
- Backed by a 1 - year manufacturer warranty
- Five - gang configuration with five USB - style module openings

OVERVIEW

The C-VTG-SS-5-U-U-U-U-U is a 5 - gang stripped brass wall plate configured with five USB - style openings, built for residence electrical supply applications where a custom, modular device plate is required. It suits both commercial and residential installations needing a durable brass gang plate.

Constructed from brass with a stripped finish, the plate is rated for 120V input at up to 15A, supporting standard single - circuit residential wiring. The IP20 rating and non - waterproof designation indicate suitability for dry, indoor environments only.

The unit is UL listed and backed by a 1 - year warranty.

SPECIFICATIONS
