

Vintage Brass 1-Gang Toggle Switch, 120V AC, IP20, UL Listed

OVERVIEW

The C-VTG-SW1-AB is a single-gang toggle switch finished in vintage brass, designed for 120V AC residential and light commercial wiring applications. The all-black configuration features a 72x120mm plate with an 83.5mm hole spacing, making it compatible with standard single-gang rough-in boxes. The handcrafted brass panel construction may exhibit minor chromatic variation inherent to the manufacturing process.

The switch is rated for 120V AC operation and carries an IP20 environmental rating, suitable for dry indoor installations only. It is not rated for wet or damp locations. Rated service life is 50,000 hours under normal operating conditions, and the unit is offered with a 1-year warranty.

The UL certification listed in the product database (UL E313169) appears in the source datasheet under a separate rotary dimmer product section; confirmation of UL listing specific to this toggle switch SKU should be verified against the manufacturer's current certification records before specifying for code-compliance purposes. Contractors should confirm applicable local code requirements prior to installation.

SPECIFICATIONS

IP rating	IP20	Rated life	50000 hours
Input voltage	120 V	Warranty	1 years
Dimensions	72x120mm / 120x120mm	Weight	0.5 lb
