

1-Gang Brass Toggle Switch, 120V AC, IP20, UL Listed, Vintage Brass Plate

OVERVIEW

The C-VTG-SW1-BG is a single-gang, two-way vintage brass toggle switch designed for 120V AC residential and light commercial wiring applications. The handcrafted brass plate provides a period-appropriate aesthetic suited for hospitality, boutique retail, and historic renovation projects where standard decorator-style devices are not appropriate.

The switch is rated for 120V AC service and carries an IP20 environmental rating, making it suitable for dry interior locations only. The brass construction is handmade, and minor chromatic variation between units should be anticipated. Rated service life is 50,000 hours. The plate dimensions are 72 x 120mm with a standard hole spacing of 83.5mm.

The product is covered by a one-year manufacturer warranty. Note that two UL file numbers appear in the source documentation (E313169 and E511941); buyers should verify the applicable listing against the specific unit received prior to installation. This switch is not rated for wet or damp locations.
