

Vintage 1-Gang Toggle Wall Switch, Black Stainless Steel Panel, 110–250V

OVERVIEW

The LumiPro Vintage 1-Gang Toggle Switch is a decorative wall switch designed for residential and light commercial installations where a classic, industrial aesthetic is required. The black stainless steel panel pairs with a brass toggle to deliver a refined vintage look suitable for exposed-conduit or boutique interior applications.

The switch is rated for 110–250V operation and a maximum current of 16A. The panel measures 86mm x 86mm with a 4mm panel thickness and is compatible with standard 86-size junction boxes. The stainless steel construction provides durability in typical indoor environments.

This item is a Final Sale product carrying a limited 30-day warranty. No additional certifications are confirmed in available documentation.
