

Vintage Toggle Wall Switch, 1-Gang, Nickel Stainless Steel, 110–250V

OVERVIEW

The LumiPro Vintage Toggle Switch is a 1-gang wall switch designed for residential and light commercial installations where a classic, industrial aesthetic is required. The nickel finish stainless steel panel pairs with a brass toggle to deliver a refined vintage look suitable for exposed-conduit, loft, or boutique commercial environments.

The panel measures 86 mm × 86 mm with a 4 mm panel thickness, compatible with standard 86-size junction boxes. Rated for 110–250V operation and a maximum current of 16A, the switch accommodates a wide range of North American and international circuits. The stainless steel panel construction provides durability in typical interior conditions.

This item is a Final Sale product carrying a limited 30-day warranty. CE certification is indicated in the product datasheet.
