

## 1-Gang Toggle Switch, Vintage Brass, 120V AC, 3-Way, IP20

### OVERVIEW

The C-VTG-SW1-VB is a single-gang toggle switch finished in vintage brass, designed for residential and light commercial wiring applications. The handcrafted brass plate measures 72x120mm and is suited for standard U.S. single-gang installations with an 83.5mm hole spacing. Note that as a handmade panel, minor chromatic variation between units is expected.

The switch is rated for 120V AC operation and carries an IP20 environmental rating, making it appropriate for dry indoor locations only. It is not rated for wet or damp environments. The toggle mechanism is rated for 50,000 hours of operational life, and the brass construction provides durability consistent with commercial-grade finish hardware.

This product carries a 1-year manufacturer warranty. A UL file number is referenced in the source documentation; buyers requiring formal certification verification should confirm the applicable UL listing against their project specifications prior to procurement.

### SPECIFICATIONS

<b>IP rating</b>	IP20	<b>Warranty</b>	1 years
<b>Input voltage</b>	120 V	<b>Weight</b>	0.5 lb
