

2-Gang Brass Toggle Switch, 3-Way, 120V AC, 150W Per Switch

OVERVIEW

The C-VTG-SW2-SB is a 2-gang toggle switch finished in satin brass, designed for residential and light commercial wiring applications. The handcrafted brass construction gives each unit a vintage aesthetic; note that minor chromatic variation between units is inherent to the manufacturing process. The wall plate measures 120 x 120 mm with an 83.5 mm hole spacing, fitting standard 2-gang rough-in boxes.

Rated for 120V AC operation, the switch carries a 50,000-hour rated service life. The unit is rated IP20, suitable for dry indoor environments only and not intended for damp or wet locations. The brass faceplate and toggle components are built to commercial-grade durability standards.

The product is covered by a 1-year manufacturer warranty. Contractors and specifiers should verify current UL listing status directly with the manufacturer prior to specification, as certification details in available documentation reference multiple file numbers across product variants in this series.

SPECIFICATIONS

IP rating	IP20	Rated life	50000 hours
Input voltage	120 V	Warranty	1 years
Dimensions	72x120mm / 120x120mm mm	Weight	0.5 lb

DIMENSION

Rated Life	50000
Rated Life UOM	Hours
Voltage	120V
Voltage UOM	AC
