

3-Gang Brass Toggle Switch, 3-Way, 120V AC, 150W Per Switch

OVERVIEW

The C-VTG-SW3-SB is a 3-gang toggle switch plate finished in satin brass, designed for residential and light commercial wiring applications requiring multi-location switching. The handcrafted brass construction gives each unit a distinctive vintage aesthetic; note that minor chromatic variation between units is inherent to the manufacturing process.

The switch operates at 120V AC and carries an IP20 environmental rating, making it suitable for dry indoor locations only. Rated switch life is 50,000 hours. The plate dimensions are 165x120mm with an 83.5mm hole spacing, accommodating standard multi-gang rough-in boxes.

Warranty coverage is one year from date of purchase. Buyers should verify current UL listing status directly with the manufacturer prior to specification, as listing confirmation was not available in the provided source documentation at time of publication.
