

## Vintage 3-Gang Toggle Wall Switch, Nickel Stainless Steel Panel, 110–250V

### OVERVIEW

The LumiPro Vintage 3-Gang Toggle Switch is a decorative wall switch panel designed for residential and light commercial installations where a classic, industrial-style aesthetic is required. The nickel finish stainless steel panel pairs with brass toggle levers, making it suitable for exposed-hardware interior designs, hospitality spaces, and renovation projects.

The panel measures 86 mm x 86 mm with a 4 mm panel thickness and is compatible with standard 86-size junction boxes. Rated for 110–250V operation with a maximum current of 16A, it accommodates a range of North American and international line voltages. The stainless steel panel construction provides durability in typical indoor environments.

This item is a Final Sale product carrying a limited 30-day warranty. No additional certifications have been confirmed in available source documentation.
