

Vintage 3-Gang Toggle Wall Switch, Nickel Stainless Steel Panel, 110–250V

OVERVIEW

The LUMIPRO Vintage 3-Gang Toggle Wall Switch in nickel finish is a decorative yet functional wiring device designed for residential and light commercial interior installations. The stainless steel panel and brass toggle construction provide a period-appropriate aesthetic suitable for retrofit or new construction projects where a vintage style is specified.

The switch operates across a 110–250V range and is rated for a maximum current of 16A. The panel measures 86mm x 86mm with a 4mm panel thickness and is compatible with standard 86-size junction boxes. This is a Final Sale item offered at a 20% price reduction and carries a limited 30-day warranty.
